We believe that SPLK-2001 study tool will make you fall in love with learning, Our SPLK-2001 practice dumps enjoy popularity throughout the world.

NEW QUESTION: 1
Which statements are correct for service contracts?
A. A service contract is optional documentation that might be provided for an SOA Service.
B. Each SOA Serviceincludes a service contract.
C. A service contract defines which clients are allowed to access a particular SOA Service.
D. A service contract defines the functional and non-functional capabilities provided by an SOA Service.

E. When using web services, the WSDL for the web service is the service contract.
Answer: B,D
Explanation:
A: All Services must have a contract that adheres to a predefined template.
C: A contract describes the Service in human-readable terms, enabling a solution designer to determine its capabilities and characteristics. It includes both functional and non-functional terms. The functional aspect of a contract describes the available operations of a Service and their functional capabilities. It should be stated using business terms, in order to promote alignment of Services to business concepts. Contracts also specify non-functional aspects of Service, such as invocation protocols, security requirements, semantics, transaction requirements, invocation style, quality of Service, etc.
