NEW QUESTION: 1

Which of the following is not a characteristic of decentralized organizations?

- A. Decentralized organizations have reduced costs through resource sharing.
- B. Decentralized organizations are usually more flexible.
- C. Decentralization has a positive influence on morale.
- D. Decentralized organizations have fewer decisions made lower in the hierarchy that are monitored by senior management.

Answer: A

Explanation:

The main benefits of centralization are more effective control and reduced costs through resource sharing. In a centralized organization, senior management is able to direct control over subordinates and direct the flow of resources. Senior management is able to allocate reduce costs most effectively because they are aware of where expenses can be reduced across departments within an organization.

NEW QUESTION: 2

Which of the following ensures the availability of transactions in the event of a disaster?

- A. Send tapes daily containing transactions offsite.
- B. Capture transactions to multiple storage devices.
- C. Send tapes hourly containing transactions offsite,
- D. Transmit transactions offsite in real time.

Answer: D

Explanation:

The only way to ensure availability of all transactions is to perform a real-time transmission to an offsite facility. Choices A and B are not in real time and, therefore, would not include all the transactions. Choice C does not ensure availability at an offsite location.
