Answer: B

NEW QUESTION: 2

An implementation plan is a(n)

- A. blueprint of the design
- B. test plan to ensure proper system operation
- C. document or set of documents that provides detailed instructions for installing the system
- D. operations manual

Answer: C

Explanation:  
Implementation plans should provide detailed steps on how the designer expects the architecture to be built. The plan should provide the engineers enough detail to build the system without architect assistance.

NEW QUESTION: 3

Which modules provide connectivity for blade servers installed in the HP BladeSystem c-Class enclosure to external switches? (Select two.)

- A. Virtual Connect module
- B. MSR900 module
- C. 8200zl module
- D. HP 6120XG module
- E. 5830AF module

**Answer: A**

**NEW QUESTION: 4**

Which of the following is the BEST tool to maintain the currency and coverage of an information security program within an organization?

- A. The program's security architecture and design
- B. Information security periodicals and manuals
- C. Training and certification of the information security team
- D. The program's governance oversight mechanisms

**Answer: D**

Explanation:

Explanation/Reference:

Explanation:

While choices B, C and D will all assist the currency and coverage of the program, its governance oversight mechanisms are the best method.
